

Dear FCC Representative,
I typically don't engage in this type of message writing; however, in this case I believe it is warranted. Please don't support the petition of the National Association of Broadcasters limiting satellite radio's ability to offer locally oriented content. I pay for my subscription and as a choice, I want to hear local content as a part of my radio experience.

If local "off the air " radio offered the same variety of content, I never would have made the decision to pay for satellite radio. Please support satellite radio in its effort to fill the void and continue to provide listener driven content.

Thank you.
